ALPE LUSIA - FALCADE

San Pellegrino Pass, located right on the border between Trentino and Veneto, can be reached by car or ski bus from Moena by following the trunk road that, after "Ronchi" (departure point of Alpe Lusia cabin lift), winds upwards for 7 km up to the alpine pass at an altitude of 1919 m.

It's a ski area characterised by wide, sunny slopes where everything is within easy reach.

The trails on the pass draw the slopes of the Costabella and Cima Uomo peaks. On the opposite side, the cable car takes you up to Col Margherita, where the CNR meteorological station is also located. Here the air is as clean as the North Pole and the panorama offered by the Dolomites is sensational. After a stop at the new InAlto refuge, you can either tackle the two slopes back to the starting point, including the black "La Volata" (the northern exposure guarantees perfect snow throughout the season), or gently ski down to Falcade.

HOTEL DES ALPES

Relais Hotel Des Alpes
in Val di Fassa

SURROUNDED BY GREENERY, 10 MINUTES FROM THE SLOPES, THE PERFECT PLACE TO EXPERIENCE THE VAL DI FASSA AND THE DOLOMITES, UNESCO HERITAGE SITE

Relais Hotel Des Alpes in Soraga is the right choice to spend an unforgettable holiday in Trentino as a couple, with family, with friends. Since the beginning of tourism, the "relais", ancient post stations, where horses were changed during journeys, were places of rest and relaxation. In fact, the French verb 'relaisser', to relax, carries this very precious meaning for us as well.

That is why we chose it.

You will find yourself in the heart of the Fassa Valley Dolomites, pampered by the warmth of the Brunel family, who have made hospitality their profession.

LEADER TOURISME

Having been involved in tourism since 1989, and more particularly coach travel, Philippe DONCHE and his wife Annie SCHRAMME, both originally from Mouscron, decided to set up their own coach company.

This business is a passion for both of them. Both Philippe and Annie have their coach driving licences.... Annie handles the steering wheel just as well as her husband!

That's how LEADER TOURISME came into being in 1997.

Over time, the passion for this profession was passed on to the couple's son, Julien DONCHE, who joined the company in September 2010.

Thanks to the 1,400 M² building, which has its own mechanics' workshop, bodywork and paint shop, as well as a car wash, almost all the work that needs to be done to the coaches is carried out in their workshops!

The success of the "DONCHE" duo proved itself, and the success was swift and steady....as the administrative work intensified, it was in January 2013 that Mickaël joined the office as secretary.

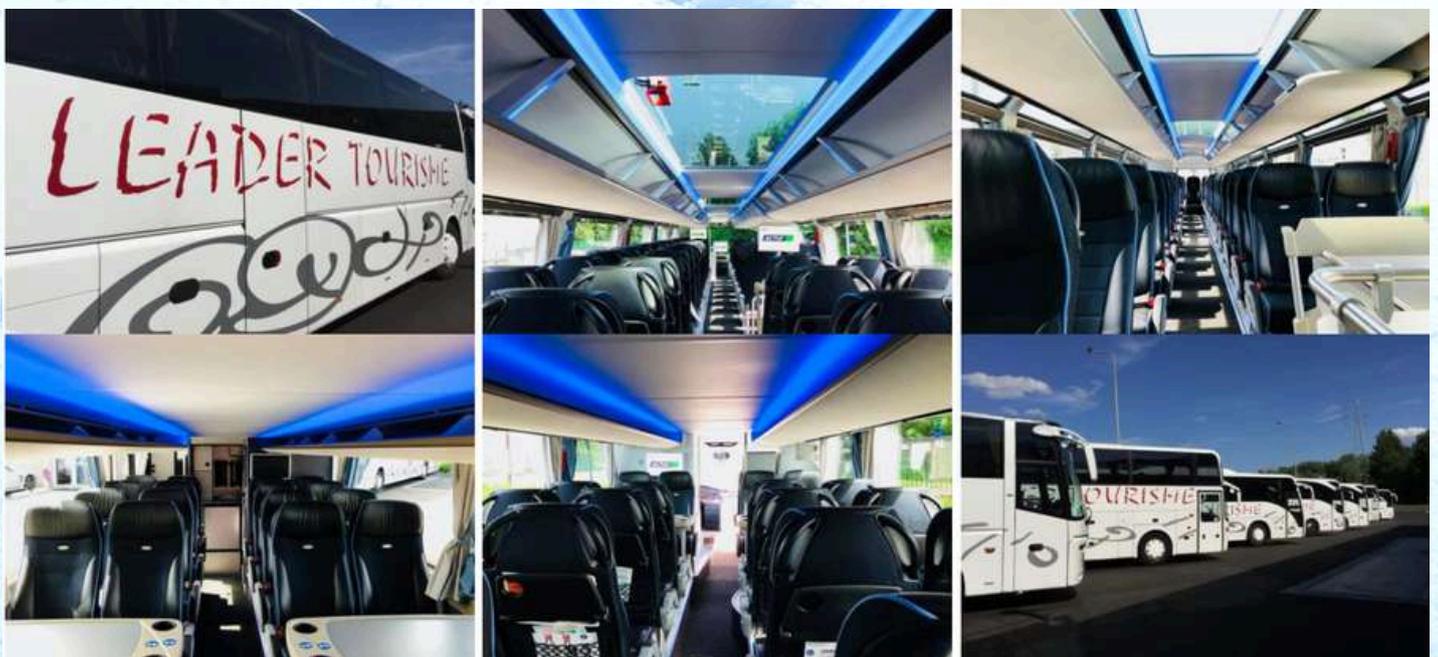

Given the fierce competition in the coach industry, the fleet had to be renewed and expanded quickly if we were to remain competitive in terms of coach comfort and quality.

Vehicles are regularly replaced to ensure that they have the latest technology, both in terms of comfort and safety.

A larger, high-quality fleet comes at a price. It was therefore necessary to completely secure the site to protect the coaches and equipment. This was achieved in 2015 with a complete renovation of the car park and modern security measures.

In July 2018, Corentin joined the administrative team as an accountant.

In 2019, the company decided to open its own travel agency by expanding its team with the arrival of Frédéric, our travel agent.
